

# Hosted Microsoft Exchange

## Premium Business-Class Email Messaging

### Top benefits of using NetAccess Exchange 2007 Hosting:

#### AFFORDABILITY

- A hosted version of Exchange 2007 allows you to lower "Total Cost of Ownership" by using NetAccess software, hardware, infrastructure, and personnel.

#### PRODUCTIVITY

- Exchange allows your team to collaborate more efficiently on projects through the ability to share calendars, tasks and important contacts.

#### ANYTIME, ANYWHERE ACCESS

- Access to mission critical data – The office isn't the only place where you and your team can be connected to your business. Use any Internet connection or mobile device (i.e. – Smartphone, BlackBerry®, iPhone).

#### SECURITY

- NetAccess Exchange hosting includes safety measures such as encryption and "remote device wipe" for lost or stolen mobile devices.

#### MAKE THE MOST OF YOUR IT

- You don't need a dedicated IT department just to get your company on the fast track to enterprise level communicating.

**Microsoft**

NetAccess offers a range of solutions to assist companies in meeting complex email requirements, including hosted services for email filtering, encryption, archiving and continuity assurance that help businesses communicate with confidence. NetAccess provides enterprise-class reliability for messaging security and management and can assist your organization by protecting itself from spam and malware.

#### Simplify Administration

NetAccess can help you simplify the administration of your messaging environments with services that are easy to deploy, manage, and maintain. The online services model requires no hardware or software installation, minimizes up front investment and provides a predictable payment schedule through a subscription-based service.

#### World's Leading Email Platform

Microsoft Exchange is the world's leading corporate email platform, and implementing it can help drive your business to the next level. For most businesses today, email is the mission-critical communications tool that allows their people to produce the best results.

#### Enterprise Class Reliability

- Scales to meet the needs of virtually any enterprise
- SLA-supported uptime and performance

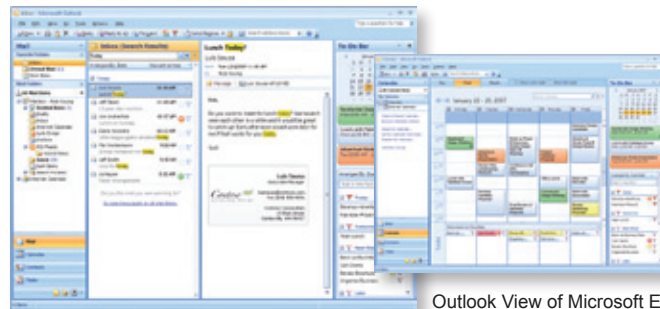

#### Active Protection

- Layered real-time anti-spam and anti-virus defenses
- Eliminates threats before they reach the corporate firewall
- Helps increase available bandwidth

#### Simplified Management

Hosted Microsoft Exchange simplifies IT environment by minimizing the need to:

- Deploy, configure, monitor, and update in-house email security servers and applications
- Help free network and server resources
- Eliminate up front capital investment
- Offer a predictable, subscription based payment
- Lower total cost of ownership when compared with on-premises solutions
- Help free up administrator time to focus on other projects

**Microsoft®**

The BlackBerry® Enterprise Solution™ is the leading wireless platform for connecting users to communications and information while on the go. It provides wireless access to email, instant messaging, personal information management and enterprise applications, such as customer relationship management, sales force automation, field service automation and more. It also provides access to personal productivity tools, including phone, web, MMS, SMS and more.

For corporate customers, BlackBerry Enterprise Server™ software tightly integrates with Microsoft® Exchange to enable secure, push-based wireless access to email and other corporate data.

## What are the benefits of using BlackBerry®?

- You can easily remain connected to people and information.
- You can communicate quickly and efficiently. BlackBerry gives users the functionality of a mobile phone with superior email and text messaging capabilities.
- You can remain organized and easily access information on the web. BlackBerry® devices offer a convenient organizer, complete with integrated address book and calendar.
- Easy access to email. With BlackBerry® "push" technology, when an email message is sent, it is automatically pushed to the BlackBerry device. No prompting. No downloading.
- Everything you need in a mobile device, and more:
  - Email, phone, text messaging, internet browser, address book, calendar, task list, memo pad, etc.
  - Wireless synchronization of email
  - Synchronization of organizer information (address book, calendar, etc.) between your BlackBerry handheld and PC
- Send and receive email quickly and easily:
  - Read, compose, forward and reply to messages at your convenience
  - View attachments in popular document formats (e.g. Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Corel WordPerfect, Adobe PDF)
- Exceptional software integration:
  - A single integrated address book and inbox serve all email, voice and text messaging applications
  - Click on an email address or telephone number inside a message to automatically compose an email or place a phone call
  - Take notes, compose an email, update your calendar – all while on a phone call
